

Remote Online Notarization (RON)

DocMagic's Total eClose RON solution provides a comprehensive and compliant platform for remote online notarizations, including identity verification, such as knowledge-based authentication (KBA) and credential analysis.

Close anywhere, anytime. No travel required.

- ✓ Intuitive video interface allows face-to-face interaction.
- ✓ Integrated identity verification and authentication tools.
- ✓ Continuous recording of your RON signing sessions.
- ✓ Secure eJournal electronically records details of each notarization act.
- ✓ All material information is automatically written to the signing event action log.

RON is just one part of Total eClose, DocMagic's comprehensive end-to-end eClosing system, that provides everything you need for hybrid and paperless eClosings. With its embedded Remote Online Notarization (RON), knowledge-based authentication, and identity validation, Total eClose is your eMortgage toolbox.

Our MISMO-certified RON solution seamlessly integrates with our MISMO-certified Total eClose solution.
